## COURSEWORK

Machine Learning

Source Software Engineering

Advanced Python Programming

Automata and Compiler Design

Cloud Computing

Defending Computer Networks

Machine Learning

Operating Systems

Basic Artificial Intelligence algorithms

## EXPERIENCE

### Sub-ordinate | PR Team GDSC

Present | SVEC, TPG

## PROJECTS

### Netflix Clone Using React

Completed a React-based Netflix clone project, featuring responsive design, real-time data fetching, and a polished UI to replicate the immersive streaming experience of the original platform.

### Customer Service Agent

Developed an advanced Customer Service chatbot leveraging AI and ML technologies, deployed on Flask for efficient interaction, providing users with intelligent and responsive customer support through a seamless and user-friendly interface.

### Basic Website Using BootStrap

Crafted a heartwarming website using Bootstrap, dedicated to sending personalized birthday greetings to my mother. The simple yet elegant design ensures a delightful user experience for expressing love and celebration on her special day.

## PUBLICATIONS

- [1] Collaborated with Mr. Ram Mohan Rao and Manoj Sai Kumar Pasupuleti to publish a conference paper on the innovative topic of Customer Service Agents in the International Journal of Innovative Science and Research Technology, contributing valuable insights to the field.
